

Guam Water Kids

Protecting Guam's Fresh Water / Prutehi i Hanom Freskon Guahan

NEW FEATURES For Kids & Teachers

Guam Water Kids is the learning experience that teaches kids the importance of Guam's fresh water resources and shows kids that what they do to conserve and preserve fresh water matters.

COMING THIS SPRING!

- Enhancements to *GuamWaterKids.com* website for easy use on tablets and smart phones.
- Additional content with more interactions for kids to learn at their own pace.
- New jumpstart workshops for educators.
- New professional field trips for educators to the Northern Guam Lens Aquifer in partnership with WERI.
- More outreach at community events.

CONTINUING FEATURES

- Focused on the value of Guam's fresh water resources and what young people can do to preserve and conserve our clean fresh water.
- Complete teachers' materials include lesson plans, activities and narrated slideshow with maps, illustrations and photos of Guam—all free and downloadable.
- Middle school level (useful for grades 3-7) in science, art, language arts, social studies Chamorro studies, spelling and vocabulary.
- All teachers, students, parents, homeschoolers, youth leaders and others may use materials at *GuamWaterKids.com* for learning activities. Approved for use by Guam Department of Education.
