On Saturday, January 9th, Triple J held Guam's first Drive-Up movie event – Reels and Wheels – a way for the company to stay connected as a community during COVID-19 and to raise funds for the Guam Memorial Hospital Volunteers Association.

Dozens of vehicles lined an open field at the Guam Football Association in Harmon to enjoy a contact free, drive-in movie night and capture a little nostalgia with their families.

Gates opened at 5pm with most vehicles arriving early for first come first serve parking. The feature movie, which started as the sun was going down, was Disney & Pixar's "Onward", one of the last movies to premiere in theaters prior to COVID-19. Only a limited number of tickets were sold for the event and was sold out back in November, but due to the rise in COVID cases at the time, the event was postponed until after the holiday season.

Strict social distancing and sanitary guidelines were set in place to ensure the event was as safe as possible. The company looks forward to hosting future drive-in events as long as it is safe to do so.

Friday, May 14, 2021 (Tamuning, Guam) – The Ford F-150 STX Supercab truck, presented at Triple J Auto Group's main location in Upper Tumon on May 14, 2021, is to support the Guam Business Partners for Recycling, Inc.'s (GBPRI) i\*recycle program efforts on Guam.

The i\*recycle program is an aluminum can recycling program that has been provided to Guam's schools since 2007 by GBPRI, to help the schools generate much needed funds and promote the recycling of aluminum cans throughout the island. To date the program has generated \$255,000 for participating schools and is expanding the program from 40 to 60 schools.

Peggy Denney, administrator of the program, said about the partnership, "I am incredibly grateful for and appreciative of Triple J's tremendous generosity in donating this Ford F-150 truck to the i\*recycle program. It's going to look fantastic and will allow me to haul twice as much as I can currently haul, and I can open the tailgate, something I haven't been able to do with mine in quite a while!"

Longtime GBPRI members also shared what this partnership means for the program:

- Mark J. Sablan of SPPC - "We welcome Triple J as a partner in the i\*recycle program. Triple J Motors consistently supports island wide community outreach programs as a part of their normal course of business and we are grateful to them for supporting the i\*recycle mission."
- Patricia Salas of Bank of Guam - "This partnership with Triple J allows the i\*recycle program to continue uninterrupted. It keeps Peggy on the road collecting aluminum cans, reducing what goes to the landfill, and promoting recycling efforts island wide."
- P. Sonny Ada of Ada's Trust and Investment - "Thank you Triple J Motors for supporting the i\*recycle program. The contribution of the Ford F-150 will go a long way in helping to collect used aluminum cans for recycling and helping support our island's quest for a clean environment."
- Tom Shimizu, GM Ambros - "Triple J stepping up to the plate in support of i\*recycle is a huge benefit to our island, and the community of Guam. We look forward to using this F-150 to pick up as much recyclable material as possible, in support of Guam schools."

The collaboration with GBPRI is part of Triple J's "Customers First" commitment to serving the community in more ways than one.

Jay Jones, Senior Vice President of Triple J Enterprises, Inc., went on to say, "It's a worthy cause – we are proud to partner with GBPRI as they continue to build momentum through this worthwhile program that not only raises funds for our schools but educates the community on the importance of recycling. We are happy to be able to support them in their efforts."

Mike Takai, General Manager for Triple J Tire Center explained the details of the partnership, stating that, “Omni United and Radar Tires celebrated their 10-year partnership with the Breast Cancer Research Foundation (BCRF) on October 1st, which also marks the start of Breast Cancer Awareness month, so for the entire month, Triple J Tire Center donated a portion of sales for every Omni and Radar tire sold, to Guam Cancer Care to support their local breast cancer awareness efforts,” Takai went on to say, “customers also received a free limited edition breast cancer awareness t-shirt with each purchase.”

On Friday, December 10th, Triple J presented a check for three thousand eight hundred dollars to Make-A-Wish Guam & CNMI from donations made through their employee elective payroll deduction program. This is the third check presentation since the program started in April 2019.

"For almost three years our employees on Guam and Saipan have donated a portion of their checks to support Make-A-Wish Guam and CNMI Chapter, doing what they can to bring hope into the lives of children facing their most difficult days. For the wish children and families, the chapter serves, working through challenging circumstances is something they have been doing long before the pandemic," said Jeff Jones, President and COO of Triple J Enterprises, Inc.

Eric Tydingco, President and CEO of Make-A-Wish Guam & CNMI chapter thanked the company for their generous contribution and added that, "2021 continues to be a challenging time for our island. This means the way we fulfill our mission at the Make-A-Wish Foundation has been altered significantly." Tydingco also added, "we rely 100% on the support of our local community to fulfill our mission – to grant the wish of children with critical illnesses. Giving regularly through your workplace or payroll is one of the easiest ways you can help wishes come true for seriously ill children and is also a great way for companies to engage your employees and inspire a positive workplace culture."

Dealers give to causes that address a broad range of community needs – children's charities topped the list. Make-A-Wish Guam & CNMI was an obvious choice, and the funds couldn't have come at a better time for the organization," said Jones.

Eric Tydingco, CEO of the Guam & CNMI Chapter of Make-A-Wish expressed the sincere gratitude of the chapter and board of directors, "2021 continues to be a challenging time for our island. This means the way we fulfill our mission at the Make-A-Wish Foundation has been altered significantly. COVID19 has been detrimental globally, and we are not spared the effects this pandemic has had on our ability to fundraise. Throughout the pandemic our organization had to adapt to this new normal and come up with innovative fundraising ideas to raise much needed revenue while adhering to the current executive order and guidelines.
