## 5TH ANNUAL TRIPLE J HIGH SCHOOL FOOTBALL ALL-STAR GAME CONCLUDES AS A TIE

The 5th Annual Triple J High School Football All-Star Game took place on Nov. 9th, pitting the best players from Guam's high school gridiron against each other one more time as a climactic end to the 2019 season. Talents flooded each roster as the selections from the All-Island list went head-to-head after being hand-pick via draft by the All-Star coaches! The All-Star game ended as a tie between both teams with a score of 12-12. The talents matched each other equally in both defense and offense.

The Matua All Star Game has been the perfect place to see who's got next, where they provide football fans glimpses of future high school talents. The current teams in 2019 are split with each of the seven teams of the GNYFF equally divided.

Each All-Star Game has gone down to the wire! The name of this year's game is defense dominated. Head coach of the Raptors in Ryan Rios and Mustangs coach Jacob Dowdell scooped up some of the league's best defensive stars in their first few draft picks so expect to see some hard-hitting action on both sides.

The Raptors secured quarterback Travon Jacobs with their first overall pick, taking two of the league's best linebackers in MVP Noah Quichocho from GW and Eugene Arriola from FD. Versatility was big for the Raptors as they have plenty of players who can suite up in different positions that made them unpredictable.

The Mustangs took Kein Artero with their first pick, the dynamic running back and return man from FD who captured his second straight offensive MVP award. They also added a beefy line on both offense and defense that proved effective.
